

Valve Regulated Lead Acid Batteries PHR Series – High Rate Discharge

General Product Limited Warranty

Power-Sonic Corporation warrants the PHR Series valve regulated lead acid batteries for UPS applications against defective workmanship and materials for three (3) years from the date the battery was put in service or for the full period plus six months from the date of manufacture based on date code.

Conditions:

- The warranty is invalid if the battery has been subject to misuse, abuse or physical damage.
- The batteries are subject to IEEE Standard 1188 Acceptance Test at time of installation. If they do not meet both, or either, the standards and the published Power-Sonic specifications the company, Power-Sonic, must be notified immediately and the user should request further instructions.
- The battery will be determined to be defective if it fails to deliver less than 80% of its rated capacity during the warranty period.
- The PHR battery selected by the user must be of the correct size, design, and capacity for the intended application. Failure to do this will invalidate the warranty.
- The battery should be installed and operated at a temperature not exceeding 77°F (25°C). The warranty period shall be reduced by 50% for operating temperatures in excess of 14°F (8°C) above this limit.
- The batteries should be paired with a suitable designated charger for sealed lead acid batteries. Incorrect selection of charger and/or failure to follow the correct charging regimen will void the warranty.
- Battery annual maintenance records must be kept manually or electronically including load tests, temperature, Ohmic readings and voltage and made available as part of any warranty claim. The failure to keep such records will nullify the warranty.
- User agrees to make accessible the batteries under warranty to Power-Sonic or its' authorized representative for inspection at reasonable hours and time intervals.
- Parallel string must be limited to five strings without the expressed written approval of Power-Sonic. The warranty shall be voided if these actions do not take place.
- The warranty shall be voided if the battery becomes unserviceable due to: fire, freezing, abuse, neglect or any act of God.
- Installation of the batteries must be performed by suitably qualified technicians and in accordance with proven acceptable practices or the warranty will be voided.
- Dismantling and moving batteries to a different location will void the warranty unless Power-Sonic is contacted and provides written consent of such action.
- This warranty shall apply only to original purchasers in the United States or Canada.
-

Claims:

- Contact the original point of purchase for instructions.
- Request return authorization. No returns will be credited without an authorization.
- In the case of returned product the batteries must be packed with sufficient padding and in the appropriate cartons to eliminate the risk of damage in transit.
- Power-Sonic has the option to credit or replace products deemed defective and under warranty.
- Cost of travel, installation, transportation shall be born by the purchaser.

The above warranty is in lieu of and not limited to all other remedies including negligence and breach of contract.
